

Use for explosion pressure shock resistance
3bar overpressure

- DN < 630
- 2mm pipe construction
- screw quality 8.8
- screw torque M10= 40Nm
M20= 60Nm

Note

- Useable for 1-3mm Pipe system
- Pipe parts centric assembled
- from DN 350mm a flanged edge with 10mm is used
- to connect 2 pipe parts with loose flange from DN 350mm or one pipe part with fixed flange and one with loose flange

* 6...7=NBR gray, 7...09=silicone beige,
 7...091=silicone blue, 8...59=EPDM black,
 9...9=FKM red-brown
